

Hit Me With Your Flu Shot!

Don't wait for the flu to knock you down! This year, say "Hit Me With Your Flu Shot" and keep on rockin'. It's just a small "Shot to the Arm and You're to Blame" for staying healthy this flu season. So, if someone asks why you feel so good, tell them "You had to get your Flu Shot, Didn't Ya," and tell them to get one too!
