Pulmonary Function Testing: (CPT Codes 94375 & 94200)	9
Radiofrequency Ablation of Refluxing Saphenous Veins	2
Respiratory Syncytial Virus (RSV) Season	5
Restore® Orthobiologic Implant	2
Treatment of Family Members Ineligible for Coverage	1

Please Note:

This newsletter contains information pertaining to Arkansas Blue Cross and Blue Shield, a mutual insurance company, its wholly owned subsidiaries and affiliates. This newsletter does not pertain to Medicare. Medicare policies are outlined in the Medicare Providers' News bulletins. If you have any questions, please feel free to call (501) 378-2307 or (800) 827-4814.

Any five-digit Physician's Current Procedural Terminology (CPT) codes, descriptions, numeric modifiers, instructions, guidelines, and other material are copyright 2002 American Medical Association. All Rights Reserved.

Treatment of Family Members Ineligible for Coverage:

Services rendered by a provider to a member of his/her immediate family are ineligible for coverage under all Policyholder's Benefit Certificates of Arkansas Blue Cross and Blue Shield, the Federal Employee Program, BlueAdvantage Administrators of Arkansas, and Health Advantage. The immediate family can include spouse, parent, child, brother, sister, or legal guardian, by blood, marriage, or adoption of the person receiving the services.

Arkansas Blue Cross and Blue Shield has received claims for services provided to family members. Once again we remind providers that such services are a contract exclusion. Refunds will be requested for any monies incorrectly reimbursed for treatment of immediate family members.

Restore® Orthobiologic Implant:

Restore® is a soft tissue implant manufactured from 10 plies of Small Intestine Submucosa (SIS), derived from porcine small intestine. According to the FDA 510(k), approval for marketing Restore® is intended for use in general surgical procedures for reinforcement of soft tissue where weakness exists. Restore® is also intended for reinforcement of the soft tissues that are repaired by suture or suture anchors, limited to the supraspinatous, during rotator cuff surgery.

There is no clinical data published in peer reviewed medical literature regarding the safety and efficacy of this implant. It is our understanding that the use of this implant is being studied to determine its efficacy.

The member benefit contracts for Arkansas Blue Cross and Blue Shield, Health Advantage, and BlueAdvantage Administrator of Arkansas excludes investigational services. Contract

definition of "investigational" is if the drug, device, or medical treatment or procedure is under study to determine its safety, its efficacy, or its efficacy as compared with a standard means of treatment or diagnosis.

Claims have been submitted recently for the use of Restore® as an adjunct to rotator cuff repair. Such claims will be denied as investigational until information is published in peer reviewed medical literature which supports the safety and efficacy of this implant.

Radiofrequency Ablation of Refluxing Saphenous Veins:

Radiofrequency ablation of refluxing saphenous veins should be billed with HCPCS code S2130 as there is no CPT code that accurately describes the procedure. If the procedure is done bilaterally, the code should be used with Modifiers RT and LT or Modifier 50. Ultrasonic guidance used in the performance of S2130 should be billed as CPT Code 76986 with Modifier 26.

The following codes are examples of CPT codes that are incorrect for coding radiofrequency ablation of refluxing saphenous veins:

- CPT Code 37204 – transcatheter occlusion or embolization (eg, for tumor destruction, to achieve hemostasis, to occlude a vascular malformation), percutaneous, any method, non-central nervous system, non-head or neck;
- CPT Code 36011 – selective catheter placement, venous system; first order branch (eg, renal vein, jugular vein);
- CPT Code 75894 – transcatheter therapy, embolization, any method, radiological supervision and interpretation.

Health Advantage Improves Breast Biopsy Referral Process:

Health Advantage now allows members who need a breast biopsy to obtain a referral from either a Primary Care Physician (PCP) or an Obstetrician/Gynecologist (OB/GYN).

OB/GYN specialists now may refer members, who have had a positive mammogram and need a breast biopsy, directly to an in-network breast surgeon. This new referral process applies only to breast biopsy referrals.

Provider Enhancements on Web Site:

Arkansas Blue Cross and Blue Shield is happy to announce expanded provider information on our websites:

www.ArkansasBlueCross.com
www.HealthAdvantage-hmo.com

The information is available for our providers and our members and is based on credentialing data provided to Arkansas Blue Cross and Blue Shield, USABLE Corporation, and Health Advantage.

Tabs for Address, Services, Education, Affiliations, and Other are found on the website under Provider Directory and include the following information:

- **Address:** Provides a physical address and phone number for providers with a link to maps and driving directions. The feature also includes addresses for multiple office locations as well.
- **Services:** Includes provider specialty and languages spoken.
- **Education:** Lists educational information beginning with medical school continuing through internship, residencies, and fellowships. This feature also includes board certifications.
- **Affiliations:** Only includes hospital affiliations for Arkansas Blue Cross and Blue Shield in-network facilities.
- **Other:** Currently, there is no information under "other" for the majority of providers but could include website links in the future.

Arkansas Blue Cross and Blue Shield is excited to provide the enhancement information to our web site Provider Directories. We believe the additional information about providers will be helpful to our members.

Please visit the website and review your information. If your directory listing needs to be updated, please mail, fax, or email your updates to:

Provider Network Operations

Attn: Provider File

P. O. Box 2181

Little Rock, AR 72203

Fax: (501) 378-2465

Email: providernetwork@ArkBlueCross.com

If you have questions, please feel free to contact Clement W. Fox, MD, MBA, FCCP, Health Advantage Medical Director.

Abdominal / Retroperitoneal Ultrasounds:

CPT Codes 76700 and 76770 are billed together frequently though there is considerable duplication when done at the same time.

- **CPT Code 76700** – ultrasound, abdominal, B-scan and/or real time with image documentation; complete.
- **CPT Code 76770** – ultrasound, retroperitoneal (e.g., renal, aorta, nodes), B-scan and/or real time with image documentation; complete.

Review of medical records has shown one or

more of the following:

- Two ultrasounds done at the same time are generally being treated as a single test;
- Both tests are done though only one has been ordered;
- There is no clear rationale for imaging both anatomical areas.

Effective November 1, 2003, Arkansas Blue Cross and Blue Shield, Health Advantage, and BlueAdvantage Administrators of Arkansas will deny CPT Code 76770 when performed on the same day as CPT Code 76700.

Multiple GI Endoscopies:

Generally, upper GI endoscopies and colonoscopies can be performed in the same setting on a single date of service. Services are paid based on multiple surgery guidelines.

Arkansas Blue Cross and Blue Shield, Health Advantage, and BlueAdvantage Administrators of Arkansas have received claims when upper and lower GI endoscopies have been performed on consecutive days or separated by a few days or weeks. Review of records on some of these procedures does not indicate a medical reason for

not doing the procedures on the same day.

Arkansas Blue Cross, Health Advantage, and Blue Advantage, have instituted the following policy:

"When outpatient EGD and colonoscopies are performed within 30 days of one another, the EGD will be paid at 50% of its usual allowance, unless there is documentation that the two procedures could not be done on the same day."

Digital Mammography:

It has come to the attention of Arkansas Blue Cross and Blue Shield, Health Advantage, and BlueAdvantage Administrators of Arkansas that providers are performing digital mammography (HCPC Codes G0202, G0204, and G0206) and billing the service with a CPT code used for film mammography (76090, 76091, and 76092). This pattern represents incorrect billing.

In June 2002, an article was published in the *Providers' News* stating the American College of Radiology Investigative Network and the National Cancer Institute are conducting a study of 49,000 women comparing digital mammography to traditional screen-film

mammography. Reports are not yet available from this study.

Member benefit contracts for Arkansas Blue Cross, Health Advantage, and BlueAdvantage excludes coverage for any experimental or investigational services. The contract definition of investigational services includes services that are the subject of ongoing phase I, II, or III clinical trials to determine efficacy as compared with a standard means of treatment or diagnosis. At this time, digital mammography continues to be a non-covered service.

Myocardial Perfusion Studies: (CPT code 78478 & 78480)

CPT codes 78478 and 78480 are frequently billed with myocardial perfusion imaging codes in the CPT Code range 78460—78465. Arkansas Blue Cross and Blue Shield, Health Advantage, and BlueAdvantage Administrators of Arkansas are aware that if CPT code 78478 is performed, the result for CPT code 78480 is only a calculation.

- **CPT Code 78478:** Myocardial perfusion study with wall motion, qualitative or

quantitative study.

- **CPT Code 78480:** Myocardial perfusion study with ejection fraction.

Effective November 1, 2003, when CPT codes 78478 and 78480 are billed together, Arkansas Blue Cross, Health Advantage, and BlueAdvantage will decrease the allowance for CPT Code 78480 by 50%.

Respiratory Syncytial Virus (RSV) Season:

Benefits are available for coverage of Respiratory Syncytial Virus Antibody, SYNAGIS (Palivzumab), under certain clinical conditions during any six-month period beginning in the fall and ending in the spring.

Clinical conditions are as follows:

- Infants, less than two years of age, who have Bronchopulmonary Dysplasia which requires oxygen supplementation;
- Infants delivered at less than 28 weeks gestation, under twelve months at the time of hospital discharge, and discharged during RSV season (any six month period beginning in fall and ending in spring);
- Infants delivered at 28-34 weeks gestation who have ongoing medical problems, less than six months of age at the time of hospital discharge, and discharged from the hospital during RSV season (November-April);
- High-risk infants, with non-respiratory problems, on an individual consideration basis (e.g., acyanotic cardiac lesions with left-to-right shunting, failure to thrive, immunodeficiency, neuro-muscular disease, severe congenital disorders).

Medical necessity documentation must be submitted for prior authorization through the Managed Pharmacy Division of Arkansas Blue Cross and Blue Shield at (501) 378-3392. SYNAGIS injections can be supplied to provider offices for administration through the specialty medication network pharmacy, Nova Factor.

Nova Factor is Arkansas Blue Cross' preferred specialty medication network

pharmacy provider offering SYNAGIS with expert pharmaceutical care management services such as compliance and caregiver education. In addition, Nova Factor provides claims processing and claims assistance for the member so there is less paperwork for providers and their staff. The member can maximize benefits by obtaining the SYNAGIS through Nova Factor.

Steps for Ordering SYNAGIS:

1. Review the Coverage Criteria on the form mailed to your office.
2. Receive Prior Authorization at (501) 378-3392.
3. Complete the Nova Factor Patient Referral Form: SYNAGIS (palivzumab).
4. Fax the completed form to (501) 378-6980.

Reminder:

If a member utilizes an out-of-network pharmacy provider, a substantial out-of-pocket responsibility for the member may result. Members are liable for amounts in excess of Arkansas Blue Cross and Blue Shield's Allowable Charge when billed by an out-of-network provider. The member may reference their Evidence of Coverage for more information or contact their local health plan Customer Service Department.

To Find out More:

If you have questions or need more information, please call the toll-free Nova Factor Customer Service line at 1(877) 482-5927. For your convenience, Nova Factor is available Monday through Friday, 7:30 a.m. - 7:00 p.m. Central Standard Time.

Pharmacy: Three-Tier Formulary Changes:

Rising pharmacy expenditures, which are based on increasing prescription utilization by members and soaring drug costs, continue to be a primary factor contributing to current premium increases.

The three-tier copayment has become an attractive method to better align the member coinsurance to the cost and preferred status of a particular medication. The three-tier pharmacy copayment concept has now grown to cover 90% of all Arkansas Blue Cross and Blue Shield, Health Advantage, and BlueAdvantage Administrators of Arkansas groups.

To lessen confusion, Arkansas Blue Cross, Health Advantage, and BlueAdvantage are attempting to make changes between the second and third tiers for three-tier copay plans only once a year during October.

Exceptions will be made for the following situations:

- When a single source medication loses its patent protection and a generic drug becomes available, the brand name medication is moved to the third-tier.
- When a new medication is approved by the FDA and becomes available, a decision will be made regarding whether to place the new drug in the second or third-tier.

Effective October 15, 2003 Arkansas Blue Cross, BlueAdvantage and Health Advantage will implement some medication changes from second tier status to third tier. For more information, you can access our web-sites at:

www.ArkansasBlueCross.com

www.HealthAdvantage-HMO.com.

Pharmacy: Drug Tier Changes:

Effective **October 15, 2003**, the following medications will move to the third tier :

Drug Name	Drug Name	Drug Name	Drug Name
Accupril	Diabinese	Matulane	Serostim
Accuretic	Dilacor XR	Methylin	Sinemet Cr
Aldactone	Diprolene	Microzide	Sinemet-10/100
Androderm	Diprolene AF	Minizide 1	Sinemet-25/250
Bumex	Doral	Minizide 5	Symmetrel
Calcimar	Dymelor	Nizoral	Teczem
Carbex	Eligard	Norco	Temovate
Cartia XT	Hectorol	Oretic	Temovate Emollient
Catapres	Hepsera	Panretin Gel	Tiazac
Catapres-TTS 1	Hydrodiuril	Parlodol	Vascor
Catapres-TTS 2	Kerlone	Pentasa	Volmax
Catapres-TTS 3	Lasix	Permax	Xopenex
Corzide	Levatol	Prolixin	Zarontin
Cyclocort	Lidex	Provigil	Ziac
Decadron Inhaler	Lidex-E	Repronex	
Desowen	Lotronex	Rescriptor	
Dexacort	Loxitane	Seligiline	
Dexedrine	Lozol	Serentil	

CMS Guidance Regarding HIPAA Compliance - Arkansas Blue Cross and Blue Shield To Implement Contingency Plan:

HIPAA requires the use of specific national standards for the electronic transmission of health care claims. The compliance deadline for the electronic transactions regulation is October 16, 2003. This deadline was recently confirmed by the enforcement agency for HIPAA transactions, Centers for Medicare and Medicaid Services (CMS).

Please note that Arkansas Blue Cross and Blue Shield has already met the HIPAA compliance requirements for claims processing, but is implementing a contingency plan as permitted by CMS to help ensure claim payments to our provider community remain uninterrupted. As a reminder, providers may utilize a clearinghouse to convert their non-standard electronic claims to the standard before transmitting that data to the appropriate payer.

Advanced Health Information Network (AHIN) is a HIPAA clearinghouse and offers its services free of charge for claims filed to Arkansas Blue Cross and Blue Shield, Health Advantage, BlueAdvantage Administrators of Arkansas, Medicaid, and Arkansas Medicare Parts A and B. AHIN will also accept claims being routed to any other Blue plan at no cost. There is a ten cent per claim fee for processing other commercial insurance claims.

If you are ready to test HIPAA compliant claims or wish to select AHIN as your clearinghouse, please contact Arkansas Blue Cross EDI Services Division at (501) 378-2419 or toll free at (866) 582-3247.

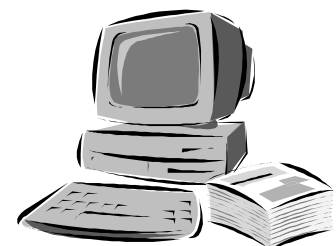

With a significant number of providers unable to generate compliant claims, there

has been growing concern over the disastrous impact the healthcare industry would suffer if claim payments were delayed due to providers reverting to paper submissions. With this knowledge, CMS issued official guidance on July 24, 2003, regarding compliance with the transaction rule (www.cms.hhs.gov/hipaa/hipaa2).

Based on this guidance, payers may choose to implement contingency plans to maintain the flow of claim payments. Providers who are making a "good faith" effort to become HIPAA compliant may continue submitting non-standard electronic claims for a limited time, until they are able to become compliant with the transactions rule.

If your organization is testing claims submission in the HIPAA format, Arkansas Blue Cross and Blue Shield will continue to accept your NSF claims for private business after the compliance deadline. Arkansas Blue Cross plans to operate in this manner for approximately six months to avoid disruption of your cash flow during this transition to HIPAA standards.

Arkansas Blue Cross does, however, reserve the right to decline acceptance of non-compliant claims at their discretion on a case-by-case basis. If you have questions or need assistance regarding HIPAA compliance, please contact the Arkansas Blue Cross and Blue Shield HIPAA Project Office at (501) 399-3833.

Corrected Bill Submission Form:

Arkansas Blue Cross and Blue Shield, Health Advantage, and BlueAdvantage Administrator of Arkansas have developed a new form for Arkansas providers when submitting corrected bills. Effective March 1, 2002, the **Corrected Bill Submission Form** must be completed and attached to all corrected bills submitted by Arkansas providers.

What is a "Corrected Bill"? A "Corrected Bill" is a claim that has been previously submitted to the plan for processing and has been finalized (paid) or denied. A corrected bill must be identified by the words "corrected bill" written on the face of the original claim and a **Corrected Bill Submission Form** must be attached to the claim. If a **Corrected Bill Submission Form** is not attached, the claim will be returned to the provider unprocessed.

The purpose of this change is to expedite processing time by assisting in identifying the actual correction and the reason for the correction. The **Corrected Bill Submission Form** can be accessed and printed from the Arkansas Blue Cross and Blue Shield web site at **www.ArkansasBlueCross.com**.

Arkansas Blue Cross and Blue Shield is working to automate the submission of corrected bills for the near future. If you have questions regarding the **Corrected Bill Submission Form**, please contact customer service at:

ABCBS (501) 378-2307 or (800) 827-4814
Health Advantage: (501) 221-3733 or (800) 843-1329
BlueAdvantage: (501) 378-3600 or (888) 872-2531

Knee Braces:

In an attempt to clarify coverage for custom versus off-the-shelf knee braces, Arkansas Blue Cross and Blue Shield, Health Advantage and BlueAdvantage Administrators of Arkansas are making a change in the allowance for knee braces in the Durable Medical Equipment (DME) section of the current Arkansas Blue Cross fee schedule.

As of December 1, 2003, there will be one allowance for each of the three basic classes of knee braces with no adjustment for custom versus off-the-shelf braces.

The new HCPCS Classes and allowances for knee braces will be:

Description	HCPCS Codes	Allowance
Elastic braces	L1800 - L1834	\$ 80.00
Rigid w/o joints	L1836 - L1840	\$ 108.00
Rigid with joints	L1843 - L1885	\$ 575.00

Please review these changes with your office staff. Should you have any questions, please contact your local Arkansas Blue Cross Network Development Representative in the regional office nearest you.

Fee Schedule Updates:

The following updates were made in the Arkansas Blue Cross and Blue Shield Fee Schedule:

Effective July 16, 2003:

HCPCS Code	Allowance
A4570	\$ 2.00

Effective August 20, 2003:

CPT Codes	Total Office	Total SOS
92533	\$ 0	\$ 0
90473	\$ 3.21	\$ 3.21
90474	\$ 2.25	\$ 2.25

Home Health Code Revisions:

For many years, Arkansas Blue Cross and Blue Shield has required the use of local procedure codes when home health services were billed. HIPPA regulations prevent the continued use of these local codes.

All Home Health agencies that participate in the Arkansas Blue Cross and Blue Shield Preferred Payment Plan (PPP) should have received the coding changes that will be effective October 16, 2003.

However, there was an error in the cover letter that accompanied the documents sent to Home Health agencies. These coding changes are effective for claims received by Arkansas Blue Cross on October 16, 2003. This is not date of service October 16, 2003 as the cover letter indicated.

These coding changes apply to Arkansas Blue Cross and Blue Shield, BlueAdvantage

Administrators of Arkansas, Access Only business, Health Advantage, and all other subsidiary and affiliate companies.

The biggest challenge in choosing new procedure codes was finding a compatible match for Arkansas Blue Cross' current coding and reimbursement structure, especially as they relate to home visits. As a result, the codes for RN, LPN and Nursing Assistant intermittent visits are being changed to "S" codes that described hourly increments.

If, for example, the actual home visit and the administrative procedures related to the home visit is greater than one hour, you should bill the hourly service code with two units. You should not bill for travel time.

Arkansas Blue Cross appreciates your understanding of these changes as we all strive to meet HIPPA requirements and deadlines.

Pulmonary Function Testing: (CPT Code 94375 & 94200)

Arkansas Blue Cross and Blue Shield has noticed unusual billing for some pulmonary function testing codes.

CPT Code 94375 (respiratory flow volume loop) is an integral component of spirometry testing in that the "loop" is included in almost all instruments used to measure expiratory flow (e.g., 94010 and 94060). CPT Code 94375 will be denied as a fragmentation when billed with any other test that includes expiratory flow measurement.

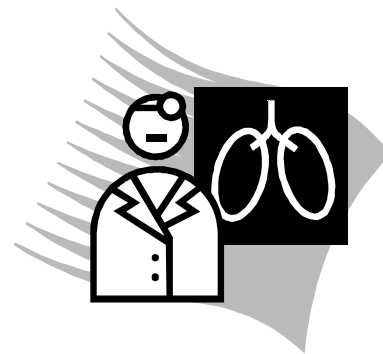

CPT Code 94200 (maximum breathing capacity, maximal voluntary ventilation) will be denied as fragmentation when billed with CPT Code 94010 or 94060, which by definition, are performed with or without maximal voluntary ventilation.

Peak flow is a simple method, used at home and in the provider office, to monitor pulmonary function. There is no specific code for the

measurement of peak expiratory flow.

The following question and comment was published in the April 1999, issue of CPT Assistant:

"What is the appropriate code assignment for performance of peak flow rate measurement?" AMA Comment: "From a CPT coding perspective when performed, peak flow rate is an inherent part of the evaluation and management examination, and is not separately reported."

Hospital Room Rates:

All hospital room rates including private, semi-private, and special care units are to be registered with Arkansas Blue Cross and Blue Shield at least annually and when such rates change.

The Bed Complement Form is located in your Arkansas Blue Cross and Blue Shield Policy and Procedure Manual for Reimbursement. Providers can also access the form on the website at www.ArkansasBlueCross.com. Simply click on the Provider link and select Provider Manual, section XI: Hospital.

The rates and changes should be sent to:
Arkansas Blue Cross Blue Shield
Hospital Reimbursement & Pricing Division
P. O. Box 2181
Little Rock, Arkansas 72203

Please remember, hospitals are responsible for sending the changes.

New Name for Out-of-Arkansas Network:

The name of Arkansas Blue Cross and Blue Shield's PPO network outside of Arkansas, currently called FirstSource, is changing its name to USABLE PPO. Arkansas Blue Cross will continue to use the name Arkansas' FirstSource for the name of their PPO network within Arkansas.

The name change to USABLE PPO will better identify the PPO product with the companies that offer it outside of Arkansas - USABLE Administrators and USABLE Life Group Health. The name change will also help prevent confusion about the previous similarities between the Arkansas' FirstSource name (within Arkansas) and the plain FirstSource name (outside Arkansas).

USABLE Administrators and USABLE Life Group Health members who have this PPO product (as well as providers) will receive letters informing them of the name change during September 2003. Most members will receive their new ID cards bearing the new name in January 2004.

USABLE PPO

Fee Schedule Updates:

Effective July 1, 2003, the following updates were made to the Arkansas Blue Cross and Blue Shield Fee Schedule :

HCPCS	Purchase	Rental	Used
